

The image features a central text block surrounded by stylized, overlapping leaves. The leaves are rendered in three colors: green, orange, and light blue. They have a simple line-art style with visible veins. The green leaves are positioned at the top left and bottom right. The orange leaves are at the top left, bottom left, and bottom right. The light blue leaf is prominently placed in the center left and center right. The background is a solid light green.

Asian and Pacific Islander's Heritage and Contributions to Our Society

Introduction

Asian Americans come from a diversity of cultures, including Chinese, Japanese, and Vietnamese. They, too, have been subjected to racial prejudice.

The Chinese Exclusion Act of 1882, for example, which was motivated by white workers blaming Chinese migrants for taking their jobs, resulted in the abrupt end of Chinese immigration and the segregation of Chinese already in America; this segregation resulted in the Chinatowns found in large cities.

Nevertheless, despite a difficult history, Asian Americans have earned the positive stereotype of the model minority. The model minority stereotype is applied to a minority group that is seen as reaching significant educational, professional, and socioeconomic levels without challenging the existing establishment.

Some People and Things You Should Know

Interesting facts

List some interesting facts about Asian Pacific Heritage Month. Here are a few examples:

- In 1978, President Jimmy Carter signed a resolution designating May as Asian/Pacific Heritage Week.
- May was chosen to commemorate the immigration of the first Japanese to the United States on May 7, 1843, and to mark the anniversary of the completion of the transcontinental railroad on May 10, 1869.
- In 1992, the official designation of May as Asian-Pacific American Heritage Month was signed into law.

The background is a solid orange color with a subtle, stylized pattern of light orange lines that resemble the veins of a large leaf or a tree's branches, creating a textured effect.
